The Lands' End fit

Lands' End clothing is designed to fit comfortably — so it's neither skimpy nor baggy. We've already allowed for shrinkage according to the fabric and directions on the care label. You shouldn't need to "size up" or "size down" unless you have a particular fit preference. Once you've found your size for a particular garment style, you can confidently order the same size in any similar product we carry. Before you decide whether a garment fits, please launder it according to the care instructions. If it still doesn't fit the way you like it, please return it for exchange or refund at any time. We want you to be pleased with your purchase, so every item is Guaranteed. Period.®

If you have questions, **please refer to the size chart in the middle of every catalog.** You may also contact us at: 1-800-469-2222. **We are available to help you 7 days a week.**

How to measure:

Height

Stand in stocking feet, with feet together and back to a wall. Measure from the floor to the top of the head.

Chest

Stand in stocking feet, with feet together and back to a wall. Measure from the floor to the top of the head.

Chest

Measure around the fullest part of the chest, keeping the tape up under the arms and around the shoulder blades.

Waist

Measure around the waist (not over pants) at the height where pants are normally worn.

Hips

Stand with heels together, and measure around the fullest part of the hips.

Inseam

Select a pair of your best-fitting pants of a similar material. Measure from the crotch intersection to the bottom. The number of inches, to the nearest half-inch, is the inseam length.

Torso

Run a tape measure full circle from the child's shoulder at the neck, over the chest, down through the center of the crotch and back up to the starting point. When determining a swimsuit size, use all measurements — height, waist, torso, etc.

No need to size up!

It's always a temptation to order a larger size, to allow for shrinkage and to provide room for growth. But we've already figured that in. After normal shrinkage from a washer and dryer set on "low," our clothes will still fit properly, with room for growth spurts.
